Released 6/16/2016 About Platinum Hide IP v3.5.8.8: Platinum Hide IP is a security tool which provides you with a way to conceal your IP address to websites and other online applications. It does this by giving it the look of a website that is actually hosted on a server in your country, which has no relation to your computer. Platinum Hide IP has the ability to cloak your IP address as well as mask your physical location through it's proxy server. It can also provide you with an extra layer of anonymity to reduce the risk of your identity being discovered by other people in the areas that you go. Features of Platinum Hide IP: 1. Cloak Your Computer's Location - Cloaking your IP address gives you the protection and anonymity to reduce the risk of your identity being discovered. 2. Cloak Your Computer's IP - Privacy is compromised by exposing your computers physical address which can lead to identity theft and harm your online experience. Platinum Hide IP is the perfect solution for this. 3. Add An Extra Layer of Anonymity - Platinum Hide IP can add an extra layer of anonymity, even on popular networking applications, to help you reduce your risk of identity exposure. 4. Hiding Information - Platinum Hide IP has the ability to conceal your IP address, location, and browsing information while still allowing you to browse the Internet. 5. Optional Proxy - You can choose to enable or disable a proxy server. If the server is enabled, your network traffic will be routed through the proxy server. If you want to use multiple proxies at the same time, you can choose the proxy server manually.
